Celia Bostwick, with the Chamber of Commerce, questioned the Economic Development support that has been in the budget for several years. She stated that she was questioning because of the Council's questions during the budget review. The Mayor brought to the Council's attention that the City has no representation on the Development Authority Board and therefore no vote on who gets hired as Economic Development Director. Ms. June Merritt, County Chairman, came before the Council to explain about the Board and its authority according to the law. The Mayor stated he just wanted it clarified that previous appoints of the Economic Development position had been decided by the Mayor, County Chairman and Chair of the Development Authority. Ms. Merritt then explained the previous hire and reiterated that the Development Authority hires the Economic Development Director. The Mayor restated that the City contributes funds but has not decision rights in the hiring process. Ms. Bostwick restated that she just asks that the City continue their support of the Economic Development Director position. The Mayor then stated that he was attending the School Board meeting and that they may want to get involved regarding Economic Development also. He then stated that no Councilmembers asked that the amount be removed at the present time.

Tracey Robinson asked questions on the difference in group insurance, cost of uniforms compared to purchasing and where the profit goes, from the Electric Department. He also asked if the gas expense is broken down by Department. The City Clerk and other Department Heads answered his questions.
